MONTANA RIVERS STUDY –

WILDLIFE AREA UNITS

Prepared for the Pacific Northwest Rivers Study
By The Montana Department of Fish, Wildlife and Parks

November 1987

Montana State Library
3 0864 1006 3598 9

PREFACE

The purpose of this book is to display on 1:250,000 scale maps each of the wildlife area units used in the wildlife portion of the Montana Rivers Study. For all the area units displayed, the corresponding 1987 deer hunting districts are also shown. In addition, for each wildlife unit, a summary of its location and final habitat, species and final wildlife values is presented.

Criteria and guidelines for the wildlife portion of the Montana Rivers Study can be found in Assessment Guidelines: Montana, published December 1986 by the Pacific Northwest Rivers Study. Copies of all reports are available from: Janet Decker-Hess, The Montana Rivers Study Project, Montana Department of Fish, Wildlife and Parks, P.O. Box 67, Kalispell; Fisheries and/or Wildlife Division, Montana Department of Fish, Wildlife and Parks Headquarters, 1420 East Sixth Avenue, Helena; and Jim Stimson, NRIS (Natural Resources Information System), Montana State Library, 1515 East Sixth Avenue, Helena.
